HUB UA

February

24.02.2022

Then Russia started the WAR

Market volume decreased

Number of vacancies decreased

What's Next?

5

But nevertheless...

Very soon,
after our victory
Ukrainian IT industry
will be rising from ashes

*And we need global
help to rebuild it*

6

Our Mission

Boost Hub Ua - Venture Network

which brings up those talented engineers and entrepreneurs who are able to change the world: innovators and value makers.

And now we are going to to **help Ukraine** by bringing together all representatives of progressive international community which want to take a part in rebuilding Ukrainian IT-sector

This is how you can help
Ukraine to reborn and and create
projects that will change the world

Venture network

Boost Hub is a Venture Network which aims to **build value**-creating partnerships, accelerating innovation and growth by providing access to capital, industry expertise, technical infrastructure and professional network.

9
